## The Better Insulation<sup>™</sup>

### ABOUT ROCKWOOL<sup>®</sup> North America

ROCKWOOL International of Denmark is the world's leading producer of stone wool insulation made from natural stone and recycled slag. ROXUL Inc. is the North American operation of ROCKWOOL International which includes Grodan, ROCKWOOL Technical Insulation (RTI) and ROCKFON<sup>®</sup>. Headquartered in Milton, Ontario, ROXUL North American production facilities are located in Milton, ON, Grand Forks, BC and our newest factory in Byhalia, Mississippi which was built to keep pace with increasing global demand for stone wool insulation. ROCKWOOL Technical Insulation services the Industrial, Marine and Off Shore Market while ROCKFON is a leading provider of acoustic stone wool and metal ceiling solutions and suspension systems headquartered in Chicago, IL with production facilities in Baltimore, MD and Chicago. All of our employees operate within a culture of trust and empowerment allowing for freedom and cooperation resulting in measurable positive business results.

### POSITION: ENVIRONMENTAL MANAGER

#### JOB INFORMATION

We are currently seeking the talent and energies of a professional who will represent the ROCKWOOL<sup>®</sup> Values of Honesty, Responsibility, Efficiency, Passion and Entrepreneurship by joining our Operations Team as an Environmental Manager based out of the Factory in Milton, Ontario.

#### Job Description

Reporting to the Factory Manager, you will manage the Environmental Management System (EMS); its development, implementation, and continuous improvement. Additionally, you will ensure that the site meets compliance to external legislative requirements (Federal, Provincial, and Local) and internal requirements at any time, in respect to all emissions generated by the site and its operation. You will also ensure that ROXUL Inc. and the Factory Management Team are kept up to date on current and future Federal, Provincial, and local legislative requirements, ensure that the Plant operates within its Environmental Compliance Approval (ECA) from the MOECC for all aspects of factory environmental impacts. You will communicate with the environmental authorities regarding any environmental issues according to procedures, schedule and conduct an annual stack emissions testing plan for the site, and participates with the purchase, extraction and evaluation of incoming raw materials to ensure they meet specification utilizing Safety Data Sheets (SDS)

#### Required Skills

- 5+ years' experience in a similar role
- Education: Environmental / Environmental Health Engineering, or Environmental Science  
Appropriate training and education in Maintenance or Engineering
- Proven track record in managing external relationships
- Proven track record driving business improvements
- Exposure to lean manufacturing concepts and techniques (TPM, 5S, Kaizen, etc.)
- Ability to motivate self
- Ability to multi-task multiple tasks and projects
- High drive, commitment and energy.
