## The Better Insulation<sup>™</sup>

### ABOUT ROCKWOOL<sup>®</sup> North America

ROCKWOOL International of Denmark is the world's leading producer of stone wool insulation made from natural stone and recycled slag. ROXUL Inc. is the North American operation of ROCKWOOL International which includes Grodan, ROCKWOOL Technical Insulation (RTI) and ROCKFON<sup>®</sup>. Headquartered in Milton, Ontario, ROXUL North American production facilities are located in Milton, ON, Grand Forks, BC and our newest factory in Byhalia, Mississippi which was built to keep pace with increasing global demand for stone wool insulation. ROCKWOOL Technical Insulation services the Industrial, Marine and Off Shore Market while ROCKFON is a leading provider of acoustic stone wool and metal ceiling solutions and suspension systems headquartered in Chicago, IL with production facilities in Baltimore, MD and Chicago. All of our employees operate within a culture of trust and empowerment allowing for freedom and cooperation resulting in measurable positive business results.

### POSITION: RAW MATERIAL OPERATOR

#### JOB INFORMATION

We are currently seeking the talent and energies of a professional who will represent the ROCKWOOL<sup>®</sup> Values of Honesty, Responsibility, Efficiency, Passion and Entrepreneurship by joining our Operations Team as a Raw Material Operator based out of the Factory in Milton, Ontario.

#### Job Description

Reporting to the TOR Quality Manager, you will be responsible for carrying out the designated tests as prescribed by the Fiber / melt and Raw Material Testing Service Level Agreement. All testing is performed as per the approved Standard Operating Procedures (SOP's) and compared to the Product Specifications. Traceable records are maintained for all testing. The XRF Operator will also assist with general Quality Management System operations.

You will:

Evaluate fiber / melt chemistry compliance by:

- Testing each facility line a minimum of once per week
- Reporting fiber / melt chemistry results to the relevant QC Manager or other designated personnel, as soon as they are available. Weekly as per the Fiber / melt Testing Service Level Agreement (SLA)
- Maintaining clear, accurate, traceable records for audit purposes

Evaluate raw material compliance by:

- Testing incoming raw materials as prescribed by the Incoming Raw Material Inspection Plan

#### Required Skills

- College or University graduate with a good understanding of basic analytical test methods for inorganic constituents.
- 1-2 years' experience in quality control in a manufacturing environment.
- > 2 years general laboratory experience
- Lean, 8D or other general continuous improvement training or experience.
- Desire to develop their own technical knowledge and career inside Grodan / ROXUL
- Efficient at data entry on a computer with a basic understanding of Excel
- Written and spoken English
