

ROXUL[®]

The Better Insulation[™]

ABOUT ROXUL

Expanding into the United States ROXUL[®] The Better Insulation[™] is a leading North American manufacturer and marketer of planet-friendly stone wool insulation made from basalt rock and recycled steel slag. ROXUL's non-combustible stone wool insulation products are used in commercial, residential and industrial applications to conserve energy while enhancing both life safety and human comfort. Headquartered in Milton, Ontario ROXUL North American production facilities are located in Milton, ON, Grand Forks, BC and our newest factory in Byhalia, Mississippi built to keep pace with increasing global demand for stone wool insulation. ROXUL employees operate within a culture of trust and empowerment allowing for freedom and cooperation resulting in measurable positive business results.

POSITION: INDUSTRIAL MILLWRIGHT

JOB INFORMATION

We are currently seeking the professional talent and energies of a proven professional who will represent the ROCKWOOL[®] Values of Honesty, Responsibility, Efficiency, Passion and Entrepreneurship by joining our TOR Operations team as an Industrial Millwright based at the Milton Factory.

Job Description

Reporting to the Maintenance Supervisor, you will provide a service for all company equipment and buildings within budgeted costs, to pursue plant improvements and to improve cost effectiveness. You will maintain a clean, safe and efficient workplace without jeopardizing product quality or the environment, while efficiently and systematically solving machine related problems. You will supply mechanical support of the highest level at the lowest cost to the production line so production can produce a high quality finished product at the highest production rate. Work takes place mainly while the plant is in production but will also include maintenance and equipment modification during down times.

Required Skills

Requirements include a recognized or Ontario Industrial Millwright qualification and at least five years' experience in an industrial manufacturing field. You are capable of working with little supervision and own your own set of quality tools
