POSITION: OFF-LINE PRODUCTION CONTROLLER, MAR

JOB INFORMATION

We are currently seeking the talent and energies of a proven professional who will represent the ROCKWOOL[®] Values of Honesty, Responsibility, Efficiency, Passion and Entrepreneurship by joining our Finance Team as an Off-Line Production Controller based at our expanding Byhalia, Mississippi Factory.

Job Description

Reporting to the Marshall County Factory Controller, you will be responsible for tasks during the build of the facility as well as tasks during the Operational Production phase. This job is split into 2 phases where the incumbent will initially look after the project costs related to the building of the line. Once the line is operational the individual will take the position of Off-Line Production Controller. You will assist in reviewing the estimate with the Project Manager to understand the scope of work and ensure the following key documents are maintained in the project files prior to project start-up; approved estimate, job start-up meeting notes and a job execution plan. You are responsible for reviewing the project estimate in SAP and supplemental worksheets. You will also be responsible for full financial and administrative functions of the Marshall County off-line production. This will include review of plant payroll, accounts payable and billing that affect the off-line financials as well as inventory control, budget and financial statement preparation and reporting.

Required Skills

- SAP experience highly desired – or Large ERP System experience
- Accounting designation and University Degree.
- Understanding of the business processes and intricacies of manufacturing companies
- Ability to multi-task and prioritize work with specific focus on deadlines
- Possesses a strong understanding of accounting including both general and cost accounting;
- Possesses experience with a manufacturing standard cost systems as well as systems for budgeting and forecasting;
